00:00

today I'm going to enter somebody

00:02

pretty amazing pretty for HSV pretty

00:05

scary I'm on the other side of this

00:07

door Allen I read up the French girls

00:10

makes a lot of effort pretending they are

00:23

not making any effort and you know I

00:30

like my fashion I like everybody call

00:35

it effortless when I do a lot of work

00:41

to make it look effortless and I think

00:44

I'm the that's the trick of

00:49

parisian chic

00:54

for me I like our painful I just want

01:01

to disappear straight away I'm very

01:04

lucky because my show always is always

01:07

at the very beginning of the Fashion

01:09

Week and most of the time I just escape

01:12

the day after my show because I need of

01:16

all I must say that I feel like very

01:18

badly bloody after our show because I

01:20

like so much energy that you put into a

01:23

show and it feels like oh my god all

01:27

that for this for those 10 minutes of

01:29

show and I keep the inspiration

01:36

because I'm always frustrated that I

01:38

never really achieve the things like I

01:42

would like to and I'm from this

01:46

starting point it kicks me to say

01:50

okay now I want to do that I'm going to

01:52

do it and concerning the I

01:55

inspiration it can come from anything I

01:59

remember to have seen a woman doing a

02:03

putting up her hair and I found this the

02:06

gesture so feminine and so sexy I wanted

02:11

just to work on the neckline and

02:15

the shoulder

02:16

the collection can really start by that

02:19

I was looking for khakis I was like

02:24

green mix of khakis cackles

02:27

cackles there was two ideas khakis and

02:30

shoulder I'm obsessed by shoulder

02:33

and legs I must say

02:41

I'm quite a lot actually because I

02:44

found out that even things that I've

02:47

been doing since more than 10 sometimes

02:52

15 years I still keep them in

02:55

cardboards and I bring them

02:58

each season like oh look that was that

03:02

was not bad maybe we can do something

03:05

I only design things that I really

03:12

feeling for that I want to wear and I

03:15

was really when I did my fashion school

03:19

I was the directress of to do

03:23

mother kiss she was looking at the

03:26

work of everybody was around

03:28

the table and she was saying hello oh

03:32

this little dress your RP with each

03:35

suggest yes I maybe you've been like

03:37

working all night long on designing a

03:40

dress uh-huh okay so tomorrow you will

03:43

show it and you will wear it and then

03:45
